HORSE FAMINE

Threatens the United States Army, According to Report.

Special to the Herald.

San Antonio, Texas, March 20.—Officers in garrison at Fort Sam Houston are worried by the fact that a horse famine threatens the United States army. So serious is the shortage of cavalry and artillery horses that the war department was asked for suggestions for a solution of the problem. Although the government sets no limit on the price to be paid for good horses, yet, it is impossible to get enough animals to meet the needs of the army. Furthermore, it is maintained by veteran cavalry officers here that the quality of horses furnished the army is deteriorating.

It has been suggested by officers here that the government establish horse farms for the purpose of breeding and raising young horses and colts. Another plan is for the government to import fine stallions and help American breeders to bring the stock up to a higher standard, claiming the right to purchase from the horse raisers all of the male

as well as other horse raising states of the Southwest was largely depleted of its stock at the time of the deer war. The Spanish war also took many horses away, and ever since then, despite the use of automobiles, the price of horses has steadily increased. There are, however, a great many horse raisers in Texas, and in a few years this state will be able to do much toward meeting the existing demand for good horses.

SAN ANTONIO CHILDREN

Get Spirit of Civic Improvement and Plant Many Trees.

Special to the Herald.

San Antonio, Texas, March 20.—Agricultural enthusiasm in the public schools of San Antonio bids fair this spring to take the place of baseball enthusiasm in the minds and hearts of small boys of this city. Since the establishing of school gardening some two years ago, the growth of interest in this particular phase of education has been remarkable. Through the beneficence of a public spirited citizen here, Mr. George W. Bracken-

ridge, a school farm and laboratory has been established. Later a home garden club was organized among the public school pupils, every member of which is maintaining a garden at home. A tree planting movement in connection with this has been instituted and slips are being distributed for the planting of ten thousand fig trees by the boys of this city. The fig tree is not only ornamental but produces a delicious fruit, and is a welcome addition to the family menu. Later in the spring arbor day will be celebrated by the Tree Planting Club organized among the grown up people and by the Home Garden Club when ten thousand addition trees will be set out. It is confidently expected that in a few years this tree planting campaign will make San Antonio a bower of verpal beauty.

BEDBUG POISON EXPLODED.

Pullman Car Porter Wants Two Thousand Dollars—A Novel Suit.

Special to the Herald.

San Antonio, Texas, March 20.—Alleging that he was injured by the explosion of bedbug poison which he was applying to the mattresses of a Pullman sleeping car, Henry Caviness, a porter, filed suit yesterday in the 57th district court of San Antonio for two thousand dollars damages. He declares that he was not warned that the poison was not only deadly as a bath for the obnoxious insects, but that it was equally deadly as an explosive, so when he struck a match to light a cigarette, the stuff exploded and damaged him and the cigarette almost as much as the bedbugs.

ANOTHER GOOD HOUSE

Greeted the Ewing Company at the Temple Last Evening.

The Gertrude Ewing company offered "The Mansion of Aching Hearts" to another large audience last night. Tonight the company will play "Sapho," and no doubt people who like this character of play will be pleased with the bill.

The company will present a matinee bill tomorrow afternoon and close the present engagement tomorrow night.

Christian Church.

Prof. Lintt met the chorus at the Christian church last night, and if a large and enthusiastic chorus indicates a great meeting the coming meeting will be a most successful one. Over fifty voices sang last night, and it is expected that twice that number will attend the practices tonight and Saturday night. All singers of the city are cordially invited to assist in the meeting. Prof. Lintt will be glad to meet you at the church promptly at 7:30 for a short practice tonight, and will dismiss in time to attend the entertainments elsewhere.

L. D. ANDERSON, Pastor.

Attention, Sir Knights.

A called convocation of Palestine Commandery No. 3, Knights Templar, will be held in our asylum in the Murphy-Parsons building, on Oak street, Saturday, March 21st, 1908, at 8 p. m. This convocation is called for drill and rehearsal of work. The order of Knights of Malta will be communicated to those who have not received it. All Sir Knights are requested to attend. Visiting Sir Knights also welcome.

A. H. RUSSELL, E. C.

Attest: WM. H. NANCE, Recorder.

A Noted Cooking Authority Endorses Cottolene

Marion Harland Says:

"COTTOLENE is now so well and favorably known and so widely used that it needs no word of introduction or commendation from me. The most eminent of American chemists justly says that it 'possesses all desirable qualities of lard without the objectionable features inherent in all products obtained from swine.'

"COTTOLENE the 'desirable' substitute, is purer, more healthful, and more economical than lard."

When Marion Harland, one of the best known and most reliable food experts of the day, recommends COTTOLENE in such glowing and unqualified terms, you may be sure of its purity and healthfulness.

Cottolene is Guaranteed

We hereby authorize your grocer to refund your money in case you're not pleased after having given COTTOLENE a fair test.

Never Sold in Bulk

COTTOLENE is packed in pails with a patent air-tight top, to keep it clean, fresh and wholesome; also to prevent it from absorbing the disagreeable odors of the grocery, such as fish, oil, etc.

Cook Book Free

We shall be glad to send any housewife, for a two-cent stamp, our new "PURE FOOD COOK BOOK," edited and compiled by Mrs. Mary J. Lincoln, author of the famous "Boston Cook Book." Address—

THE N. K. FAIRBANK COMPANY, CHICAGO

Nature's Gift from the Sunny South

IN THE LABOR WORLD.

Twenty-two locals of the International Freight Handlers and Railway Clerks' Union are flourishing in Chicago.

Governor Magoon has ordered the extension of road building in Cuba, for the purpose of affording relief to the unemployed.

The eight-hour rule will be one of the chief questions discussed at the national convention of the United Garment Workers of America in Milwaukee next August.

Over six million dollars were paid out by organized labor in the United States last year for sick and death benefits, tool insurance, etc.

The Actors' National Protective Union of America expects a record-breaking attendance at its annual convention to be held in New York City in May.

Measures for the better payment of school teachers, the better registration of vital statistics and provision for old-age pensions are forecasted in the Nova Scotia legislature.

Detroit will entertain next August the general conventions of the International Glove Workers' Union of America, International Brotherhood of Teamsters, International Brotherhood of Stationary Firemen, and the International Typographical Union.

The Industrial Workers of the World propose to organize every branch of the milk industry, from the men and women who milk the cows to the persons who deliver the milk. It is planned to make the organization national in its scope.

The demands of the English potters to be presented to the manufacturers at the joint conference set for March 25 are likely to meet with much opposition as the operators declare it would be impossible to grant the asked for increase of 15 per cent.

T. L. Lewis, the successor of John Mitchell as president of the United Mine Workers of America, was born in Northumberland county, Pennsylvania, in 1865, and began his mining career at the age of seven years as a slate picker on the breakers at Newport.

In Canada there exists a law which subjects the saloonkeeper to a severe fine for selling liquor to a railway employe in service or in uniform. The same act also fines the employe for indulging in intoxicants.

The contract system of work in the sanitary department of Boston is again being made an issue. The Sanitary Employees' Union has asked the finance commission to investigate, and

Mayor Hibbard has also appointed a committee to consider the question.

The International Hod Carriers and Building Laborers' Union now boasts of 292 branches, scattered throughout the United States and Canada.

Labor unions of Minneapolis are arranging to conduct a crusade against all concerns which do a Sunday business in that city. The movement is aimed against concerns where labor is employed seven days in the week.

The Typographical Union of Germany, composed of printers, pressmen, feeders and typefounders, has a membership, according to its last report, of 53,807 and a fund in its treasury amounting to nearly \$1,500,000.

Thomas A. Davis of Maysville, who was recently appointed labor inspector for the state of Kentucky, is one of the veteran members of the International Typographical Union. He joined the organization at Louisville more than fifty years ago.

OLD HICKORY CHIPS.

(By Our Wise Man.)

Senator Foraker says he is not cast down. No; thrown down.

While he may not be responsible for the late financial panic, Roosevelt is undoubtedly the author of the politi-

cal panic now disturbing some of the G. O. P. brethren.

The days of the little presidential boom are numbered.

Business appears to be reviving everywhere except in congress.

The poets are doing their best to induce the weather bureau to believe that spring has come.

Happy thought; one year from now we will be pretty well over the effects of inauguration day.

Certain naval officers who declare that the navy has serious defects must have read the magazines.

Even with "In God We Trust" restored to our coins, it will still be necessary to hustle for a living.

The Uncle Joe Cannon presidential boom must be using a smokeless powder. Uncle Joe loves the idea of tariff revision with a deadly hatred.

"At last," says the St. Louis Times, "it has filtered through the country that St. Louis has the clearest drinking water of any large city in America." But that isn't what "made St. Louis famous," is it?

The other day a Chicago man laughed until he fell over and cut his head on a radiator. Some one

must have assured him that the republicans will revise the tariff immediately after the next election.
